***Response to Arguments***

1. Applicant's arguments with respect to claims 1-11 have been considered but are moot in view of the new ground(s) of rejection.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 1-11 as amended contains steps as follows: such as (a) distributing various advertising data not requested by said user terminal, (b) selecting at said user terminal, using a first user operation, said various data which the user desires to receive, and (c) selecting at said user terminal, using a second user operation, said various data which the user does not desire to receive.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the

Art Unit: 2142

applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Paul US patent no. 6,052,709.

Regarding to claimed invention as best understood, Paul teaches data distribution method of distributing data selected from each of a plurality of user terminals comprising the steps of as (a) distributing various advertising data not requested by said user terminal (figure 7, element 702), (b) selecting at said user terminal, using a first user operation, said various data which the user desires to receive, (see col., lines 26-44) and (c) selecting at said user terminal, using a second user operation, said various data which the user does not desire to receive (see col. 6, lines 26-44); (c) and (d) sending a notification to the distribution center and causing the distribution center to receive the notification from the user (see figure 7, element 703); (e) causing the distribution center to receive the notification and (f) selecting data to be subsequently distributed to the user terminal and (g) distributing the selected data to the user (see figure 8, elements 805-807) .

Regarding claim 2, for claiming ID for identifying data, Paul teaches notification message ID field as in col. 5, lines 10-20.

Regarding claim 3 for claiming notifying distribution center when data is deleted, Paul discloses e-mail filter 204.

Regarding claims 4 and 5, Paul discloses when user saves the data; the terminal notifies the distribution center of a saving operation, see figure 4, and col. 6, lines 17-25.

Regarding claims 6, 9, 11, claimed subject matter is similar to claim 1, and therefore is rejected for the similar reasons.

Regarding claims 7-8 and 10, with regard to table for storing data and table for updating and storing contents of user operation, Paul teaches storage database 206 for storing and updating content of each user, see col. 6, lines 26-58.

### ***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
